PORTABLE DVD PLAYER

USER MANUAL

FOREWORD

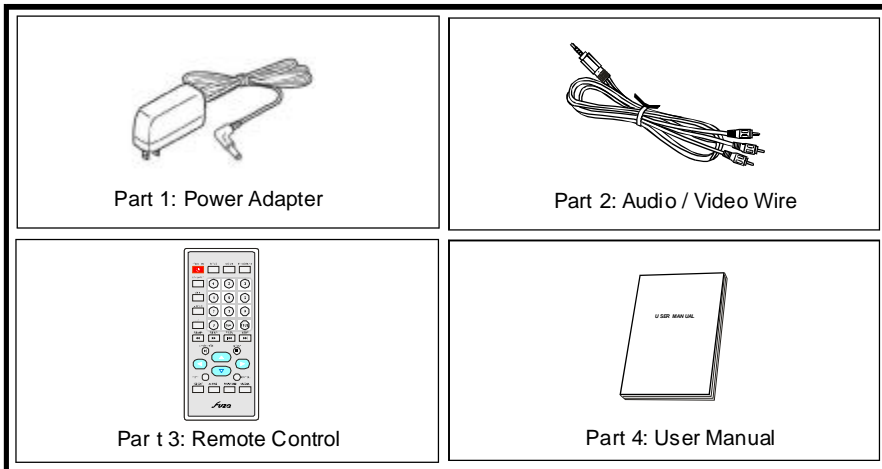

THANKS

Dear Customer,

We would like to take this opportunity to thank you for purchasing this DVD player. We strongly recommend that you carefully study the User Manual before attempting to operate the unit and that you note the listed precautions.

1. Ensure that there is a minimum distance of 5 cm around the apparatus for sufficient ventilation.
2. The ventilation openings should not be obstructed by any type of covering. For example, newspaper, table-cloths, curtains, etc.
3. No source with an naked flame, such as a lighted candle should be placed on or near the device.
4. The apparatus should not be exposed to dripping or splashing and no objects filled with liquids, such as vases, should be placed on or near the device.
5. The batteries should not be exposed to excessive heat such as sunshine, fire or similar heat sources.
6. This unit is controlled by a micro-computer, therefore a display error may occur when there is a thunder storm, static interruption or other interference. In this case, please turn off the power for 10 seconds and the unit will reset to normal once it is switched on.

ACCESSORIES
